

The Arctic Research Centre
CER-ARCTIC
Inauguration
and
The 2017 Stefansson Memorial Lecture
1 December 2017
Universitat Autònoma de Barcelona

Main objectives of the ARCTIC Research Centre at the UAB:

- To undertake socially responsible research with and for Arctic local communities.
 - To provide a linchpin and creative meeting place for transdisciplinary research and open communication.
 - To study issues of rights and social justice regarding the use of maritime resources and spaces.
 - To form a bridge for comparative studies of common issues in both Arctic and non-Arctic regions.
 - To promote greater understanding of issues of sustainability and sound governance system as frameworks for human development and welfare in the region.
-
